

AVIRE APP

The AVIRE App is the ultimate tool for configuring lift emergency communication devices. Whether you're on-site or in the office, the app's intuitive design ensures a seamless setup process, saving you time, effort, and resources.

INSTRUCTIONS

- Step 1 – Create your AVIRE Hub account in just a few steps.
- Step 2 – Download the app, and you're ready to go.
- Step 3 - Use the setup wizard to configure your DCPs and other devices on-site, ensuring a reliable and error-free installation.

Our technical team is on hand to support you every step of the way.

REMOTE CONFIGURATION

Configure lift installations remotely, saving on-site hours and reducing the need for multiple visits.

TIME & COST SAVING

Shorter learning curve and intuitive interface allow teams to get started quickly, reducing training time and expenses.

MINIMISE HUMAN ERROR

Guided setup process ensures accurate configurations every time, eliminating common installation errors.

FUTURE-PROOF TECHNOLOGY

Supports all current and future AVIRE digital products, ensuring long-term compatibility and scalability as your business grows.

RELIABLE CONNECTIVITY

Operates on-site with direct internet access, ensuring stable and reliable setup without reliance on Bluetooth.

SUPPORT AT EVERY STEP

Comprehensive user guides, video tutorials, and live customer support ensure a smooth onboarding process and ongoing assistance.
