DIGITAL SWITCH KEY DATES

January 2018	January 2021	September 2023	January 2027
Digital Switch transition start	Cancellation of new copper "service lines"	National Stop Sell	Digital Switch transition end
Copper lines are no longer automatically installed - they have to be requested.	Premises would be fitted with Fiber by default. Local stop sell initiated affecting over 1.2m premises with more areas added each year.	Copper lines are no longer installed... period. Fiber lines will be installed and your lifts will be compromised.	All analogue support is removed - unless you've updated your connection. Your lift will need to be "out of service".
